TABLE OF CONTENTS

Study Session 1:

2018 IRC Chapters 1 and 44—Administration and Referenced Standards	1
Quiz	18

Study Session 2:

2018 IRC Sections R301 and R302—Building Planning I	27
Quiz	49

Study Session 3:

2018 IRC Sections R303 through R310—Building Planning II	57
Quiz	75

Study Session 4:

2018 IRC Sections R311 through R323—Building Planning III	83
Quiz	105

Study Session 5:

2018 IRC Chapter 4—Foundations	113
Quiz	131

Study Session 6:

2018 IRC Chapter 5—Floors	139
Quiz	158

Study Session 7:

2018 IRC Chapters 6 and 7—Wall Construction and Wall Covering	167
Quiz	185

Study Session 8:

2018 IRC Chapters 8 and 9— Roof/Ceiling Construction and Roof Assemblies	193
Quiz	212

Study Session 9:

2018 IRC Chapters 10 and 11—
Chimneys/Fireplaces and Energy Efficiency 221
Quiz 240

Study Session 10:

2018 IRC Chapters 13 and 14—
General Mechanical System Requirements and Heating/Cooling Equipment 247
Quiz 262

Study Session 11:

2018 IRC Chapters 15, 16 and 19—
Exhaust Systems, Duct Systems and Special Fuel-Burning Equipment 271
Quiz 286

Study Session 12:

2018 IRC Chapters 17, 18, 20, 21, 22 and 23—
Combustion Air, Chimneys and Vents, Boilers/Water Heaters,
Hydronic Piping and Storage Systems, and Solar Systems..... 295
Quiz 309

Study Session 13:

2018 IRC Chapter 24—Fuel Gas 317
Quiz 336

Study Session 14:

2018 IRC Chapters 25, 26 and 27—
General Plumbing Requirements and Plumbing Fixtures 345
Quiz 362

Study Session 15:

2018 IRC Chapters 28, 29 and 30—
Water Heaters, Water Supply and Distribution, and Sanitary Drainage 371
Quiz 389

Study Session 16:

2018 IRC Chapters 31, 32 and 33—Vents, Traps and Storm Drainage 397
Quiz 414

Study Session 17:

2018 IRC Chapters 34, 35, 36 and 37—
General Electrical Requirements, Definitions, Services, and
Branch Circuits and Feeder Requirements 423
Quiz 439

Study Session 18:

2018 IRC Chapters 38, 39, 40, 41 and 42—
Lighting Distribution, Devices and Lighting Fixtures,
Appliance Installation and Swimming Pools 447
Quiz 464

Answer Keys 473

INTRODUCTION

This study companion provides practical learning assignments for independent study of the provisions of the 2018 *International Residential Code*[®] (IRC[®]). The independent study format affords a method for the student to complete the program in an unregulated time period. Progressing through the workbook, the learner can measure his or her level of knowledge by using the exercises and quizzes provided for each study session.

The workbook is also valuable for instructor-led programs. In jurisdictional training sessions, community college classes, vocational training programs and other structured educational offerings, the study guide and the IRC can be the basis for classroom instruction.

All study sessions begin with a general learning objective specific to the session, the specific code sections or chapter under consideration and a list of questions summarizing the key points of study. Each session addresses selected topics from the IRC and includes code text, a commentary on the code provisions, illustrations representing the provisions under discussion and multiple choice questions that can be used to evaluate the student's knowledge. Before beginning the quizzes, the student should thoroughly review the IRC, focusing on the key points identified at the beginning of each study session.

The workbook is structured so that after every question the student has an opportunity to record his or her response and the corresponding code reference. The correct answers are found in the back of the workbook in the answer key.

This study companion was developed by Douglas W. Thornburg, AIA, C.B.O., Vice-President and Technical Director, Products and Services for the International Code Council. In addition to authoring numerous educational texts and resource materials, he instructs seminars nationally on both the IBC and IRC. Doug has more than 37 years of experience in the application and enforcement of building codes.

The information presented in this publication is believed to be accurate; however, it is provided for informational purposes only and is intended for use only as a guide. As there is a limited discussion of selected code provisions, the code itself should always be referenced for more complete information. In addition, the commentary set forth may not necessarily represent the views of any enforcing agency, as such agencies have the sole authority to render interpretations of the IRC.

Questions or comments concerning this workbook are encouraged. Please direct your comments to ICC at studycompanion@iccsafe.org.

About the International Code Council

The International Code Council is a member-focused association. It is dedicated to developing model codes and standards used in the design, build and compliance process to construct safe, sustainable, affordable and resilient structures. Most U.S. communities and many global markets choose the International Codes. ICC Evaluation Service (ICC-ES) is the industry leader in performing technical evaluations for code compliance fostering safe and sustainable design and construction.
