

ASHRAE Standard Project Committee 193
Cognizant TCs: TC 4.3, Ventilation Requirements and Infiltration, and
TC 6.3, Central Forced Air Heating and Cooling Systems
SPLS Liaison: K. William Dean

Michael R. Lubliner, <i>Chair</i> *	Paul M. Haydock*	Elbert G. Phillips*
Iain S. Walker, <i>Vice-Chair</i> *	Kevin E. Keller*	Brian L. Reynolds
James Lee Austermler*	Lalit Kumar*	Armin Rudd*
Roy R. Crawford*	Collin L. Olson*	Steven Schneider*
James B. Cummings*	Hans Paller	Steven Andrew Tice
Glenn Friedman*		George A. Yaeger*

*Denotes members of voting status when the document was approved for publication

ASHRAE STANDARDS COMMITTEE 2009–2010

Steven T. Bushby, <i>Chair</i>	Merle F. McBride
H. Michael Newman, <i>Vice-Chair</i>	Frank Myers
Robert G. Baker	Janice C. Peterson
Michael F. Beda	Douglas T. Reindl
Hoy R. Bohanon, Jr.	Lawrence J. Schoen
Kenneth W. Cooper	Boggarm S. Setty
K. William Dean	Bodh R. Subherwal
Martin Dieryckx	James R. Tauby
Allan B. Fraser	James K. Vallort
Katherine G. Hammack	William F. Walter
Nadar R. Jayaraman	Michael W. Woodford
Byron W. Jones	Craig P. Wray
Jay A. Kohler	Wayne R. Reedy, <i>BOD ExO</i>
Carol E. Marriott	Thomas E. Watson, <i>CO</i>

Stephanie Reiniche, *Manager of Standards*

SPECIAL NOTE

This American National Standard (ANS) is a national voluntary consensus standard developed under the auspices of the American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE). *Consensus* is defined by the American National Standards Institute (ANSI), of which ASHRAE is a member and which has approved this standard as an ANS, as “substantial agreement reached by directly and materially affected interest categories. This signifies the concurrence of more than a simple majority, but not necessarily unanimity. Consensus requires that all views and objections be considered, and that an effort be made toward their resolution.” Compliance with this standard is voluntary until and unless a legal jurisdiction makes compliance mandatory through legislation.

ASHRAE obtains consensus through participation of its national and international members, associated societies, and public review.

ASHRAE Standards are prepared by a Project Committee appointed specifically for the purpose of writing the Standard. The Project Committee Chair and Vice-Chair must be members of ASHRAE; while other committee members may or may not be ASHRAE members, all must be technically qualified in the subject area of the Standard. Every effort is made to balance the concerned interests on all Project Committees.

The Manager of Standards of ASHRAE should be contacted for:

- a. interpretation of the contents of this Standard,
- b. participation in the next review of the Standard,
- c. offering constructive criticism for improving the Standard, or
- d. permission to reprint portions of the Standard.

DISCLAIMER

ASHRAE uses its best efforts to promulgate Standards and Guidelines for the benefit of the public in light of available information and accepted industry practices. However, ASHRAE does not guarantee, certify, or assure the safety or performance of any products, components, or systems tested, installed, or operated in accordance with ASHRAE’s Standards or Guidelines or that any tests conducted under its Standards or Guidelines will be nonhazardous or free from risk.

ASHRAE INDUSTRIAL ADVERTISING POLICY ON STANDARDS

ASHRAE Standards and Guidelines are established to assist industry and the public by offering a uniform method of testing for rating purposes, by suggesting safe practices in designing and installing equipment, by providing proper definitions of this equipment, and by providing other information that may serve to guide the industry. The creation of ASHRAE Standards and Guidelines is determined by the need for them, and conformance to them is completely voluntary.

In referring to this Standard or Guideline and in marking of equipment and in advertising, no claim shall be made, either stated or implied, that the product has been approved by ASHRAE.

CONTENTS

ANSI/ASHRAE Standard 193-2010 Method of Test for Determining the Airtightness of HVAC Equipment
