AMERICAN NATIONAL STANDARD

Approval of an American National Standard requires verification by ANSI that the requirements for due process, consensus, and other criteria for approval have been met by the standards developer.

Consensus is established when, in the judgement of the ANSI Board of Standards Review, substantial agreement has been reached by directly and materially affected interests. Substantial agreement means much more than a simple majority, but not necessarily unanimity. Consensus requires that all views and objections be considered, and that a concerted effort be made toward their resolution.

The use of American National Standards is completely voluntary; their existence does not in any respect preclude anyone, whether he or she has approved the standards or not, from manufacturing, marketing, purchasing, or using products, processes, or procedures not conforming to the standards.

The American National Standards Institute does not develop standards and will in no circumstances give an interpretation of any American National Standard. Moreover, no person shall have the right or authority to issue an interpretation of an American National Standard in the name of the American National Standards Institute. Requests for interpretations should be addressed to the secretariat or sponsor whose name appears on the title page of this standard.

CAUTION NOTICE: This American National Standard may be revised or withdrawn at any time. The procedures of the American National Standards Institute require that action be taken periodically to reaffirm, revise, or withdraw this standard. Purchasers of American National Standards may receive current information on all standards by calling or writing the American National Standards Institute.

PREFACE

The principal purpose of this Commentary is to provide a basic volume of knowledge and facts relating to building construction as it pertains to the regulations set forth in *ICC A117.1-2017 Accessible and Usable Buildings and Facilities*. The person who is serious about effectively designing, constructing and regulating buildings and structures for accessibility will find the Commentary to be a reliable data source and reference to almost all components of the built environment.

This Commentary covers all chapters and sections of the standard. It provides in a small package and at a reasonable cost thorough coverage of many issues likely to be dealt with when using *ICC A117.1-2017 Accessible and Usable Buildings and Facilities*—and then supplements that coverage with historical and technical background.

Throughout all of this, effort has been made to keep the vast quantity of material clear and its method of presentation useful. With a comprehensive yet concise summary of each section, the Commentary provides a convenient reference for regulations applicable to the construction of buildings and structures for accessibility. In the chapters that follow, discussions focus on the full meaning and implications of the standard text. Discussions suggest the most effective method of application and the consequences of not adhering to the standard text. Illustrations are provided to aid understanding; they do not necessarily illustrate the only method of achieving compliance with the standard.

The format of the Commentary includes the reproduction of each section, table and figure in the standard, followed immediately by the commentary applicable to that section, table or figure. At the time of printing, the Commentary reflects the most up-to-date version of *ICC A117.1-2017 Accessible and Usable Buildings and Facilities*. Each section's narrative includes a statement of its objective and intent, and usually includes a discussion about why the requirement commands the conditions set forth. Standard text and commentary text are easily distinguished from each other. All standard text is shown as it appears in the standard itself, and all commentary is indented below the standard text and begins with the symbol ❖.

The Commentary is to be used in conjunction with *ICC A117.1-2017* and not as a substitute for it. The Commentary is advisory only; the code official alone possesses the authority and responsibility for interpreting the standard.

Comments and recommendations are encouraged, for through your input, we can improve future editions. Please direct your comments to the Codes and Standards Development Department at the Central Regional Office.

FOREWORD

(The information contained in this foreword is not part of this American National Standard (ANS) and has not been processed in accordance with ANSI's requirements for an ANS. As such, this foreword may contain material that has not been subjected to public review or a consensus process. In addition, it does not contain requirements necessary for conformance to the standard.)

Development

The 1961 edition of ANSI Standard A117.1 presented the first criteria for accessibility to be approved as an American National Standard and was the result of research conducted by the University of Illinois under a grant from the Easter Seal Research Foundation. The National Easter Seal Society and the President's Committee on Employment of People with Disabilities became members of the Secretariat, and the 1961 edition was reaffirmed in 1971.

In 1974, the U.S. Department of Housing and Urban Development joined the Secretariat and sponsored needed research, which resulted in the 1980 edition. After further revision that included a special effort to remove application criteria (scoping requirements), the 1986 edition was published. When requested in 1987, the Council of American Building Officials (CABO) assumed the Secretariat. Central to the intent of the change in the Secretariat was the development of a standard that, when adopted as part of a building code, the standard would be compatible with the building code and its enforcement. The 1998 edition largely achieved that goal. The 2017 edition of the standard is the latest example of the A117.1 committee's effort to continue developing a standard that is compatible with the building code.

In 1998, CABO became the International Code Council (ICC). The International Code Council (ICC) became the secretariat in 1998 when CABO became ICC. The 2017 edition marks the 30th anniversary of the ICC Secretariat of the standard.

2017 Edition

New to the 2017 edition are enhanced dimensions for clear floor spaces and turning spaces. These increases were in response to technical data regarding the space needed by persons using scooters and some types of motorized wheelchairs. These enhanced provisions only apply to new buildings and facilities. Where existing buildings and facilities are remodeled, the historic dimensions will still apply.

Other changes include exterior routes, curb cuts, blended transitions, clarity for detectable warnings, passenger drop offs and parking requirements coordinated with the Public Rights of Way Guidelines, providing an accessible design standard for electrical vehicle charging stations and enhanced safety for accessible routes crossing parking lots. Also introduced are acoustic standards for classrooms, features allowing for better communication for persons using sign language, provisions addressing the recharging of wheelchairs in assembly venues and hotels, access to gaming machines and tables, and provisions for water bottle filling stations.

The new standard continues to provide coordination between the accessible provisions of this standard and the Fair Housing Accessibility Guidelines (FHAG) and the 2010 Standard for Accessible Design referenced by the American’s with Disabilities Act (ADA) and the Architectural Barriers Act (ABA).

ANSI Approval

This Standard was processed and approved for submittal to ANSI by the Accredited Standards Committee A117 on Architectural Features and Site Design of Public Buildings and Residential Structures for Persons with Disabilities.

ANSI approved the 2017 edition on March 28, 2017. Committee approval of the Standard does not necessarily imply that all Committee members voted for its approval.

Adoption

ICC A117.1–2017 is available for adoption and use by jurisdictions internationally. Its use within a governmental jurisdiction is intended to be accomplished through adoption by reference in accordance with proceedings establishing the jurisdiction’s laws.

Interpretations

Requests for interpretations on the provisions of ICC A117.1–2017 should be addressed to: ICC, Chicago District Office, 4051 Flossmoor Road, Country Club Hills, IL 60478.

Maintenance—Submittal of Proposals

All ICC standards are revised as required by ANSI. Proposals for revising this edition are welcome. Please visit the ICC website at www.iccsafe.org for the official “Call for proposals” announcement. A proposal form and instructions can also be downloaded from www.iccsafe.org.

ICC, its members and those participating in the development of ICC A117.1-2017 do not accept any liability resulting from compliance or noncompliance with the provisions of ICC A117.1-2017. ICC does not have the power or authority to police or enforce compliance with the contents of this standard. Only the governmental body that enacts this standard into law has such authority.

Accredited Standards Committee A117 on Architectural Features and Site Design of Public Buildings and Residential Structures for Persons with Disabilities

At the time of ANSI approval, the A117.1 Committee consisted of the following members:

Chair	Kenneth M. Schoonover, PE
Vice Chair	Gina Hilberry, AIA
A117 Committee Secretary	Kermit C. Robinson, CBO
Organizational Member	Representative
Accessibility Equipment Manufacturers Association (AEMA) (PD)	Scott A. Cleary
 Robert Murphy (Alt)
American Council of the Blind (ACB) (CU)	Christopher G. Bell
 Eric Bridges (Alt)
American Hotel and Lodging Association (AHLA) (BO)	Douglas J. Anderson, CASp, RAS
American Institute of Architects (AIA) (P)	David S. Collins, FAIA
 Larry M. Schneider, AIA (Alt)
American Occupational Therapy Association (AOTA) (P)	Shoshana Shamberg, OTR, MS, FAOTA
 Brian J. Dudgeon (Alt)
American Society of Interior Designers (ASID) (P)	Jim Brewer
 Tracy Leatherberry (Alt)
American Society of Plumbing Engineers (ASPE) (P)	Daniel O’Gorman
 Julius A. Ballanco, P.E. (Alt)
American Society of Safety Engineers (ASSE) (P)	William Marletta, Ph.D, CSP
 Mary Winkler, CSP (Alt)
American Society of Theatre Consultants (ASTC) (P)	R. Duane Wilson, ASTC
 William Conner, ASTC (Alt)
 Scott Crossfield, ASTC (Alt)
Association of Pool and Spa Professionals (APSP) (PD)	John Caden
 Carvin DiGiovanni (Alt)
Association for Education & Rehabilitation of the Blind & Visually Impaired (AERBVI) (P)	Melanie J. Hughes, M.S., COMS
 Alexander Castillo
 Billie Louise “Beezy” Bentzen, PhD (Alt)
Brain Injury Association of America (BIAA) (CU)	Robert Dale Lynch, FAIA, FAAFS
 Jeffrey Levine (Alt)
Builders Hardware Manufacturers Association, Inc. (BHMA) (PD)	Michael Tierney
 Kurt A. Roeper (Alt)
Building Owners and Managers Association International (BOMA) (BO)	Steve Orłowski

COMMITTEE

Construction Specifications Institute (CSI)(P)	Dennis J. Hall, FAIA, FCSI
Disability Rights Education & Defense Fund (DREDF) (CU)	Marilyn Golden
 Karen L. Braitmayer, FAIA (Alt)
Hearing Loss Association of America (HLAA) (CU)	Sharon Toji
 Brenda Battat (Alt)
Illuminating Engineering Society of North America (IESNA) (P)	Greg Guarnaccia
 Robert Dupuy (Alt)
 Eunice Noell-Waggoner (Alt)
International Association of Amusement Parks and Attractions (IAAPA) (BO) . .	John Paul Scott, AIA, NCARB
	.. Robert Minnick, PE, CSP
	.. Stephanie See (Alt)
International Code Council (ICC) (R)	Kimberly Paarlberg, RA
 John S. Gonzalez (Alt)
International Sign Association (ISA) (PD)	Teresa Cox
 Glenn Dea, AIA (Alt)
 Kenny Peskin (Alt)
Little People of America, Inc. (LPA) (CU)	Allison Lourash
Montgomery County Department of Permitting Services (MCDPS) (R)	Robert Kelly
 Hemal Mustafa (Alt)
National Association of Convenience Stores (NACS) (BO)	Bradley Gaskins, AIA, CASp
 Sean Robinson (Alt)
National Association of Home Builders (NAHB) (BO)	Dan Buuck.
 Gary Ehrlich, P.E. (Alt)
National Association of Theater Owners	Gene Boecker, AIA, RAS
 Matt Lescher, CASp (Alt)
National Association of the Deaf (NAD) (CU)	Hansel Bauman
National Electrical Manufacturers Association (NEMA) (PD)	Richard Roberts
 Denise Pappas (Alt)
National Elevator Industry, Inc. (NEII) (PD)	Kevin L. Brinkman
National Fire Protection Association (NFPA) (R)	Allan B. Fraser
 Ron Coté, PE (Alt)
National Multifamily Housing Council (NMHC) (BO)	Ronald G. Nickson
New Mexico Governor’s Commission on Disability (NMGCD) (CU)	Hope Reed
 Daniel A. Fernandez (Alt)
North Carolina Department of Insurance; Office of the State Fire Marshal (NCOSFM)(R)	Laurel W. Wright
Paralyzed Veterans of America (PVA) (CU)	Mark H. Lichter, AIA
 Gigi L. Scovel, AIA (Alt)

COMMITTEE

Interest Categories

Builder/Owner/Operator (BO) – Members in this category include those in the private sector involved in the development, construction, ownership and operation of buildings or facilities; and their respective associations.

Consumer/User (CU) – Members in this category include those with disabilities, or others who require accessibility features in the built environment for access to buildings, facilities and sites; and their respective associations.

Producer/Distributor (PD) – Members in this category include those involved in manufacturing, distributing, or sales of products; and their respective associations.

Professional (P) – Members in this category include those qualified to engage in the development of the body of knowledge and policy relevant to their area of practice, such as research, testing, consulting, education, engineering or design; and their respective associations.

Regulatory (R) – Members in this category include federal agencies, representatives of regulatory agencies or organizations that promulgate or enforce codes or standards; and their respective associations.

Individual Expert (IE) (Nonvoting) – Members in this category are individual experts selected to assist the consensus body. Individual experts shall serve for a renewable term of one year and shall be subject to approval by vote of the consensus body. Individual experts shall have no vote.

Voting Membership in Each Category

Category	Number
Builder/Owner/Operator - (BO)	8
Consumer/User - (CU)	11
Professional - (P)	15 (5 individual)
Producer/Distributor - (PD)	9 (1 individual)
Regulatory - (R)	9
TOTAL MEMBERS	52
