FlashCards are designed to assist in the learning of construction codes and are to be used in conjunction with the IPC and other established educational materials. ICC has made reasonable efforts to provide accurate information as part of these FlashCards. However, ICC makes no guarantees or warranties, express or implied, as to the accuracy of any information provided, including, without limitation, any warranties of merchantability or fitness for a particular purpose. ICC will not be held liable for any damages or loss, whether direct, indirect, consequential, or punitive, that may arise through your use of any FlashCards.

## IPC FLASHCARDS

In order to develop a proficient understanding of the *International Plumbing Code*® (IPC®), it is important that code users be as familiar with the format and content of the code as possible. There is no substitute for using the code book itself in studying the technical provisions. However, these FlashCards can be an important tool in gaining a working knowledge of the code or in preparation for an exam. FlashCards are powerful learning tools that can provide the user with an easy-to-use approach to learning.

## HOW TO USE FLASHCARDS

The use of FlashCards is subject to the preferences of the user. The following method is an example of how to effectively use the FlashCards:

Create three categories for the cards. During the self-review, put each card into the appropriate category based on the following criteria. If you know the answer without hesitation, put the card into the “know” pile. If you can remember with a little hesitation, put the card into the “ok” pile. If you cannot remember the answer, put the card into the “needs work” pile. Recall time is an indication of how well you know the material. The better you know something, the faster you can answer a question about it. One of the keys to memorization is to review the material as many times as possible. Commit to enough study time until you have all of the cards in the “know” pile.

## OTHER STUDY RESOURCES

Another valuable learning resource is the *International Plumbing Code® Study Companion* available from ICC. Fifteen study sessions address selected topics from the IPC and include code text, a commentary on the provisions and relevant illustrations. Comprehensive quizzes are provided at the end of each session, along with the corresponding answers and code references. Over 300 questions/answers are provided.

For a complete list of Study Companions, visit <http://shop.iccsafe.org>

## EXAMS THAT REFERENCE THE IPC

ICC examinations referencing the *International Plumbing Code* include:

BC Building Codes and Standards Module  
P2 Commercial Plumbing Inspector  
P3 Plumbing Plans Examiner

Visit <https://www.iccsafe.org/credentialing/certifications> for more information on ICC exams. The exam catalog contains content outlines, test policies and more important exam information.
