PRINTED IN THE USA

PREFACE

Introduction

This 2024 *Ohio Building Code* is based on the 2021 *International Building Code*® (IBC®) with incorporated Ohio changes.

The IBC establishes minimum requirements for building systems using prescriptive and performance-related provisions. It is founded on broad-based principles that make possible the use of new materials and new building designs. This 2021 edition is fully compatible with all of the International Codes® (I-Codes®) published by the International Code Council® (ICC®), including the International Energy Conservation Code® (IECC®), International Existing Building Code® (IEBC®), International Fire Code® (IFC®), *International Fuel Gas Code*® (IFGC®), *International Green Construction Code*® (IgCC®), *International Mechanical Code*® (IMC®), *International Plumbing Code*® (IPC®), *International Private Sewage Disposal Code*® (IPSDC®), *International Property Maintenance Code*® (IPMC®), *International Residential Code*® (IRC®), *International Swimming Pool and Spa Code*® (ISPSC®), *International Wildland-Urban Interface Code*® (IWUIC®), *International Zoning Code*® (IZC®) and *International Code Council Performance Code*® (ICCP®).

In addition to the codes themselves, the code development process brings together building professionals on a regular basis. It provides an international forum for discussion and deliberation about building design, construction methods, safety, performance requirements, technological advances and innovative products.

The I-Codes, including the IBC, are used in a variety of ways in both the public and private sectors. Most industry professionals are familiar with the I-Codes as the basis of laws and regulations in communities across the US and in other countries. However, the impact of the codes extends well beyond the regulatory arena, as they are used in a variety of nonregulatory settings, including:

- Voluntary compliance programs such as those promoting sustainability, energy efficiency and disaster resistance.
- The insurance industry, to estimate and manage risk, and as a tool in underwriting and rate decisions.
- Certification and credentialing of individuals involved in the fields of building design, construction and safety.
- Certification of building and construction-related products.
- US federal agencies, to guide construction in an array of government-owned properties.
- Facilities management.
- “Best practices” benchmarks for designers and builders, including those who are engaged in projects in jurisdictions that do not have a formal regulatory system or a governmental enforcement mechanism.
- College, university and professional school textbooks and curricula.
- Reference works related to building design and construction.

In addition to the codes themselves, the code development process brings together building professionals on a regular basis. It provides an international forum for discussion and deliberation about building design, construction methods, safety, performance requirements, technological advances and innovative products.

Development

This 2021 edition presents the code as originally issued, with changes reflected in the 2003 through 2018 editions and further changes approved by the ICC Code Development Process through 2019. A new edition such as this is promulgated every 3 years.

This code is intended to establish provisions that adequately protect public health, safety and welfare; that do not unnecessarily increase construction costs; that do not restrict the use of new materials, products or methods of construction; and that do not give preferential treatment to particular types or classes of materials, products or methods of construction.

Maintenance

The IBC is kept up to date through the review of proposed changes submitted by code enforcement officials, industry representatives, design professionals and other interested parties. Proposed changes are carefully considered through an open code development process in which all interested and affected parties may participate.

The ICC Code Development Process reflects principles of openness, transparency, balance, due process and consensus, the principles embodied in OMB Circular A-119, which governs the federal government's use of private-sector standards. The ICC process is open to anyone; there is no cost to participate, and people can participate without travel cost through the ICC's cloud-based app, cdpAccess®. A broad cross section of interests are represented in the ICC Code Development Process. The codes, which are updated regularly, include safeguards that allow for emergency action when required for health and safety reasons.

In order to ensure that organizations with a direct and material interest in the codes have a voice in the process, the ICC has developed partnerships with key industry segments that support the ICC's important public safety mission. Some code development committee members were nominated by the following industry partners and approved by the ICC Board:

- American Institute of Architects (AIA)
- National Association of Home Builders (NAHB)
- National Association of State Fire Marshals (NASFM)

The code development committees evaluate and make recommendations regarding proposed changes to the codes. Their recommendations are then subject to public comment and council-wide votes. The ICC's governmental members—public safety officials who have no financial or business interest in the outcome—cast the final votes on proposed changes.

The contents of this work are subject to change through the code development cycles and by any governmental entity that enacts the code into law. For more information regarding the code development process, contact the Codes and Standards Development Department of the ICC.

While the I-Code development procedure is thorough and comprehensive, the ICC, its members and those participating in the development of the codes disclaim any liability resulting from the publication or use of the I-Codes, or from compliance or noncompliance with their provisions. The ICC does not have the power or authority to police or enforce compliance with the contents of this code.

Marginal Markings

For Digital Codes Basic and Premium services, Ohio amendments to the International Codes are shown in **red text**. An open arrow (>) in the margin indicates I-Code text has been omitted.

For print and PDF versions of the code, double vertical lines in the margin within the body of the code indicate Ohio amendments. An open arrow (>) in the margin indicates I-Code text has been omitted.

Coordination of the International Codes

The coordination of technical provisions is one of the strengths of the ICC family of model codes. The codes can be used as a complete set of complementary documents, which will provide users with full integration and coordination of technical provisions. Individual codes can also be used in subsets or as stand-alone documents. To make sure that each individual code is as complete as possible, some technical provisions that are relevant to more than one subject area are duplicated in some of the model codes. This allows users maximum flexibility in their application of the I-Codes.

Italicized Terms

Terms italicized in code text, other than document titles, are defined in Chapter 2. The terms selected to be italicized have definitions that the user should read carefully to better understand the code. Where italicized, the Chapter 2 definition applies. If not italicized, common-use definitions apply.

Note: In Sections 1903 through 1905, italics indicate provisions that differ from ACI 318.

Adoption

The International Code Council maintains a copyright in all of its codes and standards. Maintaining copyright allows the ICC to fund its mission through sales of books, in both print and electronic formats. The ICC welcomes adoption of its codes by jurisdictions that recognize and acknowledge the ICC's copyright in the code, and further acknowledge the substantial shared value of the public/private partnership for code development between jurisdictions and the ICC.

The ICC also recognizes the need for jurisdictions to make laws available to the public. All I-Codes and I-Standards, along with the laws of many jurisdictions, are available for free in a nondownloadable form on the ICC's website. Jurisdictions should contact the ICC at adoptions@iccsafe.org to learn how to adopt and distribute laws based on the IBC in a manner that provides necessary access, while maintaining the ICC's copyright.

603 Combustible Material in
Types I and II Construction 6-4

**CHAPTER 7 FIRE AND SMOKE
PROTECTION FEATURES. 7-1**

Section

701 General. 7-1
702 Multiple-Use Fire Assemblies 7-1
703 Fire-Resistance Ratings and Fire Tests 7-1
704 Fire-Resistance Rating of Structural Members 7-2
705 Exterior Walls 7-4
706 Fire Walls. 7-9
707 Fire Barriers. 7-11
708 Fire Partitions. 7-13
709 Smoke Barriers. 7-14
710 Smoke Partitions 7-15
711 Floor and Roof Assemblies 7-16
712 Vertical Openings 7-17
713 Shaft Enclosures. 7-18
714 Penetrations 7-20
715 Joints and Voids. 7-23
716 Opening Protectives. 7-24
717 Ducts and Air Transfer Openings 7-31
718 Concealed Spaces. 7-37
719 Fire-Resistance Requirements for Plaster 7-39
720 Thermal- and Sound-Insulating Materials 7-39
721 Prescriptive Fire Resistance. 7-40
722 Calculated Fire Resistance. 7-40

CHAPTER 8 INTERIOR FINISHES 8-1

Section

801 Scope 8-1

802 General. 8-1
803 Wall and Ceiling Finishes 8-1
804 Interior Floor Finish. 8-4
805 Combustible Materials in Types I
and II Construction 8-4
806 Decorative Materials and Trim 8-5
807 Insulation 8-6
808 Acoustical Ceiling Systems 8-6

**CHAPTER 9 FIRE PROTECTION
AND LIFE SAFETY SYSTEMS. 9-1**

Section

901 General. 9-1
902 Fire Pump and Riser Room Size 9-2
903 Automatic Sprinkler Systems 9-2
904 Alternative Automatic
Fire-Extinguishing Systems. 9-10
905 Standpipe Systems. 9-12
906 Portable Fire Extinguishers 9-14
907 Fire Alarm and Detection Systems 9-17
908 Emergency Alarm Systems 9-28
909 Smoke Control Systems. 9-28
910 Smoke and Heat Removal 9-37
911 Fire Command Center 9-38
912 Fire Department Connections 9-39
913 Fire Pumps. 9-40
914 Emergency Responder Safety Features 9-41
915 Carbon Monoxide Detection 9-41
916 Gas Detection Systems 9-42
917 Mass Notification Systems 9-43
918 Emergency Responder
Communication Coverage 9-43

CHAPTER 10 MEANS OF EGRESS. 10-1

Section

1001 Administration 10-1
1002 Maintenance and Plans 10-1
1003 General Means of Egress 10-1
1004 Occupant Load 10-2
1005 Means of Egress Sizing. 10-4
1006 Number of Exits and
Exit Access Doorways 10-5
1007 Exit and Exit Access
Doorway Configuration 10-7
1008 Means of Egress Illumination 10-8
1009 Accessible Means of Egress 10-9

1010 Doors, Gates and Turnstiles. 10-12
 1011 Stairways 10-23
 1012 Ramps 10-26
 1013 Exit Signs. 10-28
 1014 Handrails 10-28
 1015 Guards 10-30
 1016 Exit Access 10-31
 1017 Exit Access Travel Distance 10-32
 1018 Aisles 10-33
 1019 Exit Access Stairways and Ramps. 10-34
 1020 Corridors 10-34
 1021 Egress Balconies 10-36
 1022 Exits. 10-36
 1023 Interior Exit Stairways and Ramps 10-36
 1024 Exit Passageways. 10-38
 1025 Luminous Egress Path Markings. 10-39
 1026 Horizontal Exits. 10-41
 1027 Exterior Exit Stairways and Ramps. 10-41
 1028 Exit Discharge 10-42
 1029 Egress Courts. 10-43
 1030 Assembly 10-43
 1031 Emergency Escape and Rescue 10-51

CHAPTER 11 ACCESSIBILITY 11-1

Section

1101 General. 11-1
 1102 Compliance 11-1
 1103 Scoping Requirements. 11-1
 1104 Accessible Route 11-2
 1105 Accessible Entrances 11-3
 1106 Parking and Passenger Loading Facilities 11-4
 1107 Motor-Vehicle-Related Facilities 11-5
 1108 Dwelling Units and Sleeping Units 11-5
 1109 Special Occupancies 11-9
 1110 Other Features and Facilities 11-11
 1111 Recreational Facilities 11-16
 1112 Signage 11-18
 1113 Adult Changing Station Accessibility. 11-20

CHAPTER 12 INTERIOR ENVIRONMENT 12-1

Section

1201 General. 12-1
 1202 Ventilation 12-1
 1203 Temperature Control 12-4

1204 Lighting 12-4
 1205 Yards or Courts 12-4
 1206 Sound Transmission. 12-5
 1207 Enhanced Classroom Acoustics. 12-5
 1208 Interior Space Dimensions. 12-5
 1209 Access to Unoccupied Spaces 12-6
 1210 Toilet and Bathroom Requirements. 12-6

CHAPTER 13 ENERGY EFFICIENCY 13-1

Section

1301 General. 13-1

CHAPTER 14 EXTERIOR WALLS 14-1

Section

1401 General. 14-1
 1402 Performance Requirements 14-1
 1403 Materials 14-2
 1404 Installation of Wall Coverings. 14-3
 1405 Combustible Materials on the
 Exterior Side of Exterior Walls 14-8
 1406 Metal Composite Materials (MCM) 14-9
 1407 Exterior Insulation and
 Finish Systems (EIFS). 14-10
 1408 High-Pressure Decorative Exterior-Grade
 Compact Laminates (HPL) 14-11
 1409 Plastic Composite Decking 14-12

**CHAPTER 15 ROOF ASSEMBLIES AND
 ROOFTOP STRUCTURES 15-1**

Section

1501 General. 15-1
 1502 Roof Drainage 15-1
 1503 Weather Protection 15-1
 1504 Performance Requirements 15-1
 1505 Fire Classification 15-3
 1506 Materials 15-4
 1507 Requirements for Roof Coverings. 15-4
 1508 Roof Insulation 15-16
 1509 Roof Coatings 15-16
 1510 Radiant Barriers Installed Above Deck. 15-16
 1511 Rooftop Structures. 15-17
 1512 Reroofing 15-19

CHAPTER 16 STRUCTURAL DESIGN. 16-1

Section

1601 General. 16-1

TABLE OF CONTENTS

1602 Notations 16-1
1603 Construction Documents 16-1
1604 General Design Requirements 16-2
1605 Load Combinations 16-4
1606 Dead Loads 16-6
1607 Live Loads 16-7
1608 Snow Loads 16-15
1609 Wind Loads 16-15
1610 Soil Loads and Hydrostatic Pressure 16-33
1611 Rain Loads 16-33
1612 Flood Loads 16-34
1613 Earthquake Loads 16-40
1614 Atmospheric Ice Loads 16-43
1615 Tsunami Loads 16-43
1616 Structural Integrity 16-43

CHAPTER 17 SPECIAL INSPECTIONS AND TESTS 17-1

Section
1701 General 17-1
1702 New Materials 17-1
1703 Approvals 17-1
1704 Special Inspections and Tests,
Contractor Responsibility
and Structural Observation 17-1
1705 Required Special Inspections and Tests 17-3
1706 Design Strengths of Materials 17-12
1707 Alternative Test Procedure 17-12
1708 In-Situ Load Tests 17-13
1709 Preconstruction Load Tests 17-13

CHAPTER 18 SOILS AND FOUNDATIONS 18-1

Section
1801 General 18-1
1802 Design Basis 18-1
1803 Geotechnical Investigations 18-1
1804 Excavation, Grading and Fill 18-3
1805 Dampproofing and Waterproofing 18-4
1806 Presumptive Load-Bearing Values of Soils 18-5
1807 Foundation Walls, Retaining Walls
and Embedded Posts and Poles 18-6
1808 Foundations 18-11
1809 Shallow Foundations 18-15
1810 Deep Foundations 18-17

CHAPTER 19 CONCRETE 19-1

Section
1901 General 19-1
1902 Coordination of Terminology 19-1
1903 Specifications for Tests and Materials 19-1
1904 Durability Requirements 19-2
1905 Modifications to ACI 318 19-2
1906 Footings for Light-Frame Construction 19-4
1907 Minimum Slab Provisions 19-5
1908 Shotcrete 19-5

CHAPTER 20 ALUMINUM 20-1

Section
2001 General 20-1
2002 Materials 20-1

CHAPTER 21 MASONRY 21-1

Section
2101 General 21-1
2102 Notations 21-1
2103 Masonry Construction Materials 21-1
2104 Construction 21-2
2105 Quality Assurance 21-2
2106 Seismic Design 21-2
2107 Allowable Stress Design 21-2
2108 Strength Design of Masonry 21-3
2109 Empirical Design of Adobe Masonry 21-3
2110 Glass Unit Masonry 21-5
2111 Masonry Fireplaces 21-6
2112 Masonry Heaters 21-8
2113 Masonry Chimneys 21-9
2114 Dry-Stack Masonry 21-13

CHAPTER 22 STEEL 22-1

Section
2201 General 22-1
2202 Identification of Steel for
Structural Purposes 22-1
2203 Protection of Steel
for Structural Purposes 22-1
2204 Connections 22-1
2205 Structural Steel 22-1
2206 Composite Structural Steel and
Concrete Structures 22-2

2207 Steel Joists 22-2
 2208 Steel Cable Structures 22-3
 2209 Steel Storage Racks 22-3
 2210 Cold-Formed Steel 22-3
 2211 Cold-Formed Steel Light-Frame Construction 22-4

CHAPTER 23 WOOD 23-1

Section

2301 General 23-1
 2302 Design Requirements 23-1
 2303 Minimum Standards and Quality 23-1
 2304 General Construction Requirements 23-10
 2305 General Design Requirements for
 Lateral Force-Resisting Systems 23-23
 2306 Allowable Stress Design 23-25
 2307 Load and Resistance Factor Design 23-25
 2308 Conventional Light-Frame Construction 23-26
 2309 Wood Frame Construction Manual 23-57

CHAPTER 24 GLASS AND GLAZING 24-1

Section

2401 General 24-1
 2402 Glazing Replacement 24-1
 2403 General Requirements for Glass 24-1
 2404 Wind, Snow, Seismic and
 Dead Loads on Glass 24-1
 2405 Sloped Glazing and Skylights 24-3
 2406 Safety Glazing 24-4
 2407 Glass in Handrails and Guards 24-6
 2408 Glazing in Athletic Facilities 24-6
 2409 Glass in Walkways, Elevator Hoistways
 and Elevator Cars 24-7

**CHAPTER 25 GYPSUM BOARD,
 GYPSUM PANEL PRODUCTS
 AND PLASTER 25-1**

Section

2501 General 25-1
 2502 Performance 25-1
 2503 Inspection 25-1
 2504 Vertical and Horizontal Assemblies 25-1
 2505 Shear Wall Construction 25-1
 2506 Gypsum Board and Gypsum
 Panel Product Materials 25-1
 2507 Lathing and Plastering 25-1

2508 Gypsum Construction 25-2
 2509 Showers and Water Closets 25-4
 2510 Lathing and Furring for
 Cement Plaster (Stucco) 25-4
