## TABLE OF CONTENTS

### Study Session 1:
- 2018 IBC Chapters 1 and 35—Scope and Administration ........................................ 1
- Quiz.......................................................................................................................... 21

### Study Session 2:
- 2018 IBC Chapter 3 and Sections 508 and 509—
  Occupancy Classification and Use ......................................................................... 29
- Quiz.......................................................................................................................... 54

### Study Session 3:
- 2018 IBC Chapter 6—Types of Construction ......................................................... 63
- Quiz.......................................................................................................................... 80

### Study Session 4:
- 2018 IBC Chapter 5—General Building Heights and Areas ................................. 89
- Quiz.......................................................................................................................... 110

### Study Session 5:
- 2018 IBC Sections 701 through 705—
  Fire and Smoke Protection Features I ................................................................. 119
- Quiz.......................................................................................................................... 140

### Study Session 6:
- 2018 IBC Sections 706 through 712—
  Fire and Smoke Protection Features II ................................................................. 149
- Quiz.......................................................................................................................... 165

### Study Session 7:
- 2018 IBC Sections 713 through 720—
  Fire and Smoke Protection Features III ............................................................... 173
- Quiz.......................................................................................................................... 193

### Study Session 8:
- 2018 IBC Chapter 9—Fire Protection and Life Safety Systems ............................ 201
- Quiz.......................................................................................................................... 220
| Study Session 9: | 2018 IBC Sections 1001 through 1005, 1008, 1009, 1013 and 1015—Means of Egress I | 227 |
| Study Session 9: | Quiz | 248 |
| Study Session 10: | 2018 IBC Sections 1010 through 1012 and 1014—Means of Egress II | 255 |
| Study Session 10: | Quiz | 275 |
| Study Session 11: | 2018 IBC Sections 1006, 1007 and 1016 through 1021—Means of Egress III | 283 |
| Study Session 11: | Quiz | 300 |
| Study Session 12: | 2018 IBC Sections 1022 through 1030—Means of Egress IV | 307 |
| Study Session 12: | Quiz | 327 |
| Study Session 13: | 2018 IBC Chapter 11—Accessibility | 335 |
| Study Session 13: | Quiz | 352 |
| Study Session 14: | 2018 IBC Chapter 4—Special Detailed Requirements Based on Use and Occupancy | 359 |
| Study Session 14: | Quiz | 382 |
| Study Session 15: | 2018 IBC Chapters 14, 15 and 18—Exterior Wall Coverings, Roofs and Foundations | 389 |
| Study Session 15: | Quiz | 408 |
| Study Session 16: | 2018 IBC Chapters 16, 17, 19, 21, 22 and 23—Special Inspections, Concrete, Masonry and Wood | 415 |
| Study Session 16: | Quiz | 432 |
Study Session 17:

2018 IBC Chapters 8, 12, 25 and 30—
Interior Finishes, Interior Environment, Gypsum Board and Elevators.......... 439
Quiz ................................................................................................................... 459

Study Session 18:

2018 IBC Chapters 24 and 26—Glazing, Skylights and Plastics..................... 467
Quiz ................................................................................................................... 484

Answer Keys .................................................................................................... 491
This study companion provides practical learning assignments for independent study of the provisions of the 2018 *International Building Code*® (IBC®). The independent study format affords a method for the student to complete the study program in an unlimited amount of time. Progressing through the workbook, the learner can measure his or her level of knowledge by using the exercises and quizzes provided for each study session.

The workbook is also valuable for instructor-led programs. In jurisdictional training sessions, community college classes, vocational training programs and other structured educational offerings, the study guide and the IBC can be the basis for code instruction.

All study sessions begin with a general learning objective, the specific sections or chapters of the code under consideration and a list of questions summarizing the key points of study. Each session addresses selected topics from the IBC and includes code text, a commentary on the code provisions and illustrations representing the provisions under discussion. Quizzes are provided at the end of each study session. Before beginning the quizzes, the student should thoroughly review the referenced IBC provisions, particularly the key points.

The workbook is structured so that after every question the student has an opportunity to record his or her response and the corresponding code reference. The correct answers are indicated in the back of the workbook in the answer key.

This study companion was initially developed by Douglas W. Thornburg, AIA, C.B.O., for the 2000 *International Building Code*. In this publication, he has updated and revised the material based on the 2018 *International Building Code*. Doug is currently Vice-President and Technical Director, Products and Services for the International Code Council®. In addition to authoring numerous educational texts and resource materials, he instructs seminars nationally on the IBC. Doug has over 37 years of experience in the application and enforcement of building codes.

Questions or comments concerning this workbook are encouraged. Please direct your comments to ICC at studycompanion@iccsafe.org.
About the International Code Council

The International Code Council is a member-focused association. It is dedicated to developing model codes and standards used in the design, build and compliance process to construct safe, sustainable, affordable and resilient structures. Most U.S. communities and many global markets choose the International Codes. ICC Evaluation Service (ICC-ES) is the industry leader in performing technical evaluations for code compliance fostering safe and sustainable design and construction.
