INTRODUCTION

The *Extendex* makes it easy to find what you're looking for in the 2009 *International Residential Code*®.

Although the IRC® has its own index, you may in some cases need to know the specific location of a code requirement that is not listed. If you are familiar with the IRC, you probably know what main heading a particular item falls under in the code. If not, you could waste valuable time hunting for it.

The *Extendex* is an extended index that tells you the section of the 2009 IRC where an item is covered. To use the *Extendex*, simply look up the subject you need, then turn to the IRC chapter or section number listed for that subject in the right-hand column.

The International Code Council® (ICC®) has prepared this document to assist you in your use of the 2009 *International Residential Code*. ICC is dedicated to meeting your educational needs by offering a wide range of services that support users of the *International Codes*®: products, seminars, certifications, membership, plan review, code opinion and product evaluation. Thanks to your commitment, ICC is the worldwide leader in code development and building safety. To find out more about products and services that assist users of the *International Codes*, visit our web site at www.iccsafe.org.
