# American National Standard

Approval of an American National Standard requires verification by ANSI that the requirements for due process, consensus and other criteria for approval have been met by the standards developer.

Consensus is established when in the judgment of the ANSI Board of Standards Review, substantial agreement has been reached by directly and materially affected interests. Substantial agreement means much more than a simple majority, but not necessarily unanimity. Consensus requires that all views and objections be considered, and that a concerted effort be made toward their resolution.

The use of American National Standards is completely voluntary; their existence does not in any respect preclude anyone, whether he or she has approved the standards or not, from manufacturing, marketing, purchasing or using products, processes or procedures not conforming to the standards.

The American National Standards Institute does not develop standards and will in no circumstances give an interpretation of any American National Standard. Moreover, no person shall have the right or authority to issue an interpretation of an American National Standard in the name of the American National Standards Institute. Requests for interpretations should be addressed to the secretariat or sponsor whose name appears on the title page of this standard.

**CAUTION NOTICE:** This American National Standard may be revised or withdrawn at any time. The procedures of the American National Standards Institute require that action be taken periodically to reaffirm, revise or withdraw this standard. Purchasers of American National Standards may receive current information on all standards by calling or writing the American National Standards Institute.

# TABLE OF CONTENTS

<b>CHAPTER 1 ADMINISTRATION AND SCOPE</b> . . . . .	<b>1</b>	704—Masonry Fireplace Surround Prescriptive Retrofit . . . . .	163
101—General . . . . .	1	705—Engineered Retrofit of Masonry Chimneys . . . . .	163
102—Retrofit and New Work . . . . .	2		
103—Site Seismicity . . . . .	3		
104—Assessment and Retrofit Methodologies . . . . .	3		
<b>CHAPTER 2 DEFINITIONS, NOTATIONS AND ABBREVIATIONS</b> . . . . .	<b>5</b>	<b>CHAPTER 8 DETAILED VULNERABILITY-BASED ASSESSMENT</b> . . . . .	<b>165</b>
201—General . . . . .	5	801—General . . . . .	165
202—Definitions . . . . .	5	802—Foundation . . . . .	165
203—Notations and Abbreviations . . . . .	8	803—Foundation Sill Plate Anchorage to Foundation . . . . .	165
<b>CHAPTER 3 MINIMUM CONSTRUCTION REQUIREMENTS</b> . . . . .	<b>9</b>	804—Bracing Wall Sheathing . . . . .	166
301—General . . . . .	9	805—Floor Framing Rim Joist and Blocking . . . . .	168
302—Existing Conditions . . . . .	9	806—Requirements for Ground Story Bracing Walls for Living-Space-Over-Garage Dwellings . . . . .	169
303—Materials . . . . .	10		
304—Installation . . . . .	15	<b>CHAPTER 9 REFERENCED STANDARDS</b> . . . . .	<b>173</b>
305—Special Inspections . . . . .	17		
<b>CHAPTER 4 VULNERABILITY-BASED ASSESSMENT AND RETROFIT OF CRAWL SPACE DWELLINGS</b> . . . . .	<b>19</b>	<b>APPENDIX A SUMMARY OF LOADS FOR EXTERIOR WALL FINISH MATERIALS AND FOR SIMPLIFIED ENGINEERING RETROFIT</b> . . . . .	<b>177</b>
401—General . . . . .	19	A101—General . . . . .	177
402—Vulnerability-Based Assessment . . . . .	21		
403—Prescriptive Vulnerability-Based Retrofit . . . . .	22	<b>APPENDIX B OTHER VULNERABILITIES</b> . . . . .	<b>181</b>
404—Simplified Engineered Vulnerability-Based Retrofit . . . . .	74	B101—General . . . . .	181
